Turnover***Year***

Provide your total revenue for the last year you had a turnover.

Are there employees within the organization? If so, how many? *

What is the purpose (objective) of the organization according to your statutes? Here we want you to state verbatim what is stated in your statutes. *

Do not paste your entire statutes – provide only the text related to your organization's purpose (objective). If you are a subsidiary association (local association): state the purpose (objective) as stated in your own statutes - not in the statutes of the parent organization (national organization).

Does the organization's operations serve a public benefit? Describe in what way a public benefit is achieved. *

Describe your organization's primary operation and provide a justification for why these activities serve a public benefit. Here we want you to describe the organization's activities in your own words - do not paste what is written in your statutes. By activities that serve a public benefit, we mean, work that addresses a pressing social problem that it is outside the area of responsibility of the state/municipality and benefits a broad public, either directly or indirectly.

If you are an organization with members, is membership open to all who share the organization's purpose and follows the organization's statutes? *

Yes/No

In special circumstances, these documents may be requested during the assessment of the application.

The Project

Project name*

Project start date*

Project end date* (last day of the month)

The project can be 1-9 months in length. Remember to include time for planning, purchasing, and evaluation. The Postcode Lottery Foundation cannot be responsible for any costs incurred before the project start date or after the project end date. A project agreement must be signed before the project start date. Please note that it is not possible to extend the project duration during the course of the project.

Funding amount requested*

It is possible to apply for 20,000 – 60,000 SEK. The project must be fully or primarily financed with support from The Neighborhood Initiative. The implementation of the project must not be dependent on outside unsecured financing.

Region*

Municipality*

Provide one to three postcodes where the project takes place. *

What is the project's theme? * (Select one alternative)

- More people meet and share experiences with others in the neighborhood.
- More people feel included in communities within the neighborhood.
- More people have access to activities and places in the neighborhood.
- More people enjoy the neighborhood and take advantage of new opportunities for well-being and health.

Projects that receive support from The Neighborhood Initiative must contribute to at least one of these themes. Choose the theme that best matches your project.

Describe the project and the activities that you intend to carry out, and provide a timeline for when the work will be achieved. *

Clearly describe the activities you intend to carry out and state how many times each activity will occur. Also provide a timetable for when the activities will be carried out and explain how you will market the activities to attract your stated target group(s).

What change will be made by the project? *

Describe the societal change you expect the project to achieve. This can be demonstrated through both qualitative and quantitative results at the end of the project.

How does the project fulfill The Neighborhood Initiatives purpose of more vibrant, open, and accessible neighborhoods? *

The overall purpose of the Neighborhood Initiative is to contribute to more vibrant, open, and accessible neighborhoods. Clarify how the change that the project's activities are expected to lead to relates to this purpose.

To achieve this purpose, we at the Postcode Lottery Foundation believe that new activities in the neighborhood are necessary to strengthen connections between people, create new encounters, and contribute to increased well-being and health. Projects within the Neighborhood Initiative must contribute to (at least) one of the following:

- More people meet and share experiences with others in the neighborhood.

- *More people feel included in communities within the neighborhood.*
- *More people have access to activities and places in the neighborhood.*
- *More people enjoy the neighborhood and take advantage of new opportunities for well-being and health.*

Has this project been previously carried out by your organization? If, so how many times? *

Project support cannot be given to regular, ongoing, or recurring activities. And a project needs to contain something that is new. It could, for example, be a new or further developed activity or offering an existing activity to a new target group or new neighborhood.

How many neighbors do you intend to reach within the project?ur många i grannskapet ska delta i aktiviteterna? (provide an estimate target) *

Enter an approximate number of UNIQUE participants - if a person participates multiple times, count this as only ONE participant.

What groups in the neighborhood do you intend to reach? *

Specify the target group(s) for which the activities are aimed. The activities should be carried out in the target group's neighborhood and be accessible to the general public. (for example: all children in the neighborhood)

(Exceptions are made for target groups with special needs who may have difficulty taking part in other activities, for example seniors with special accommodations.)

Confirm that all necessary permits to carry out the project have been obtained*

If permits are required to carry out the project, you need to confirm that you have already secured these necessary permits. If permits are not required for the project, check the box anyway.

Attach a project budget* Accepted file types: .pdf, .doc, .docx, .ppt, .pptx, .xls, .xlsx, .jpeg, .png, .jpg, .gif, .svg, .bmp (max 1 attached file)

Consider the following when you create your project budget:

- *All costs must include VAT*
- *The project budget may only contain costs related to the activity(ies) in the project itself.*
- *Remember to include any relevant marketing costs*
- *Any income must be clearly stated in the budget*
- *If the project has other funding, it needs to be stated in the budget which costs will be financed through The Neighbourhood Initiative.*
- *Note that support is not provided for rent/heating of the organization's regular premises, permit costs, entrance fees, visits to a café/restaurant, alcohol, or estimated value of in-kind work*
- *Payments made outside the project period are not accepted*
- *The project budget should be compatible with how you usually book costs. And costs should be distinguishable so that you can easily follow up against the project budget in the final report to The Swedish Postcode Lottery Foundation.*
- *Receipts may need to be provided during a possible audit after the project is completed. What the auditor is looking for is that payments are linked to the project and the project period and that these payments are supported by relevant documents (receipts).*
- *Project support from The Swedish Postcode Lottery Foundation is not tax deductible, even if your organization is VAT registered with the Swedish Tax Agency.*
